SUMMARY

Frontend Developer with **1 year of hands-on experience** in building **modern, responsive, and interactive user interfaces.** Skilled in creating **clean, user-friendly designs** while ensuring optimal **performance and smooth user experience.**

SKILLS

JavaScript | React.js | Tailwind CSS | Framer Motion | Shadcn UI | Firebase | MongoDB | Express.js

PROJECTS

- **Eventio** (Preview) – A responsive and interactive **event management system** where users can explore events, view details, and book upcoming or ongoing events. Offers **modern UI components** and **seamless navigation** for a smooth user experience.

- **Freeo** (Preview) – A **Full-Stack MERN marketplace application** connecting clients and freelancers for task-based projects. Features **secure authentication**, dynamic listings, and an intuitive booking process.

- **Elite Sports Club (ESC)** (Preview) – A modern and responsive web application for **sports club management.** Supports **admin, member, and user roles** with role-based dashboards. Features **court bookings, member management, announcements, and discount coupons.** Built with **React, Vite, TailwindCSS, Firebase Auth, and Hosting**, ensuring a **sleek UI, smooth animations**, and secure access.

KEY ACHIEVEMENTS

Optimized System Performance
Redesigned integration workflows, improving system performance by 30% and reducing latency impacting business operations at SAP.

Project Management Efficiency
Successfully managed concurrent project timelines, resulting in 15% improved delivery rates and enhanced client satisfaction

INTERESTS

Technology Innovation
Deeply interested in exploring new technologies and contributing meaningful advancements in the tech industry.

Software Development
Passionate about designing and building dynamic, user-friendly applications that meet complex business needs.

Photography
Enjoy capturing moments through photography, finding creativity and inspiration in visual storytelling.

LANGUAGES

English (Intermediate)   **Bangla** (Native)   **Urdu/Hindi** (Intermediate)

TRAINING / COURSES

Complete Web Development Course – Programming Hero *(July 2025)*
Covered the fundamentals of **HTML, CSS, and JavaScript** to advanced topics like **Express.js, React, and MongoDB Firebase.**
